Extract

Software engineer with strong experience in C# mobile and desktop applications. Involved in every lifecycle stage from its definition to its implementation, packaging, and distribution. Skilled in clean code and SOLID principles, CI/CD, version control and code testing. Proven ability leading development, IT, and QA teams.

Experience

Fluendo VAS - *C# Senior Software engineer (Dev lead)*
January 2016 - Now (*Barcelona, Spain*)

Working developing several multimedia **desktop** and **mobile** applications for sports analysis. Leading two product teams using **SCRUM**. Experience developing with **.Net Framework 4.7**, **+.NET9**, **NoSQL and SQL databases**, **Avalonia UI**, **Xamarin**, **GTK+2** and **GStreamer**. Also developed **REST APIs** in **.Net Core**. Using **Git** for source control and **Python** for **CI/CD**, building and packaging automation. We practice **clean code** and **SOLID principles**, **smoke**, **integration and unit testing**. Full experience implementing **MVVMC** architecture patterns.

ADTEL - *C# Junior Developer*
June 2015 - December 2015 (*Molins de Rei*)

I worked here with a small team maintaining and developing a video cameras controlling software mainly using **C#** and **ffmpeg** for streaming and recording. I worked using **SCRUM** and **Git** for source control.

Avanade - *Visual Basic Junior Developer*
June 2014 - June 2015 (*Barcelona*)

I worked here maintaining by myself a bank loan and deposits application in **Visual Basic 6.0** and **Oracle SQL** with **Toad**. I also used **Tortoise SVN** for source control and I also worked with **KANBAN**.

BYG S.A. - *Visual Basic Intern Developer*
June 2013- September 2013 (*Molins de Rei*)

I worked here maintaining a KUKA robot control software in **Visual Basic .Net** with **SQL Server**.
